## Professional Summary

As a **WordPress Back-End Developer**, I specialize in crafting dynamic, responsive, and scalable web solutions. Proficient in WordPress core functions, PHP, MySQL, and theme customization, I excel at REST API integration, custom plugin development, and performance optimization.

With expertise in JavaScript, jQuery, HTML5, and CSS3, I deliver cross-browser-compatible websites while ensuring top-notch performance and security. My commitment to code quality is backed by hands-on experience with Git, WP-CLI, Composer, and automated testing. Dedicated to continuous learning, I stay updated on the latest industry advancements to consistently exceed client expectations.

---

## Key Skills

- WordPress Core Development
  - PHP, MySQL, HTML5, CSS3, JavaScript, jQuery
  - REST API Integration
  - Custom Plugin Development
  - Advanced Custom Fields (ACF)
  - Performance Optimization (Caching, Minification)
  - Cross-Browser Compatibility
  - Dependency Management (Composer)
  - Git & WP-CLI
  - Code Review & Automated Testing
- 

## Professional Experience

### WordPress Developer

**Triospire Web Solutions** | July 2024 – Present

- Lead the development of custom WordPress solutions, leveraging PHP, HTML, and CSS for dynamic, responsive websites.

- Enhanced site performance through advanced optimization techniques, including caching and minification.
- Integrated third-party APIs and developed custom plugins for robust content management.
- Designed optimized MySQL databases and managed dependencies with Composer.
- Conducted comprehensive code reviews to maintain high-quality standards and ensure maintainability.
